

EU Transport GHG emissions: Routes to 2050?

Final Stakeholder Conference

Venue: Alcide de Gasperi room, Charlemagne building, Schumann, Brussels

Date: 15 March 2010

Objective of the meeting:

- Present the draft findings of the project to stakeholders

Final Agenda

Session 1 – The context and project approach

8.45: Registration

9.30: Open conference (**Ian Skinner, AEA Associate**)

9.40: Welcome (**Philip Owen, European Commission**)

10.00: Background and introduction to the project and conference (**Ian Skinner, AEA Associate**)

10.45: Comments and questions

11.00: Coffee break

11.30: Introduction to, and findings from, the illustrative scenarios tool (**Nik Hill, AEA**)

11.55 Questions and discussion

12.10 Review of other transport scenarios (**Huib van Essen, CE Delft**)

12.30 Questions

12.45 Lunch

Session 2 – Policy frameworks for reducing transport's GHG emissions to 2050

14.00: Policy framework for reducing GHG emissions by decarbonising transport fuels and improving vehicle efficiency (**Richard Smokers, TNO**)

14.30: Questions and discussion

15.00 Radical future transport technologies and concepts (**Sujith Kollamthodi, AEA**)

15.30 Questions

15.45 Coffee break

16.15 Policy framework for reducing transport's GHG emissions by improving the efficiency of the transport system and addressing demand (**Huib van Essen, CE Delft**)

16.45 Questions

17.15 Conclusions on reducing transport's GHG emissions to 2050 (**Huib van Essen, CE Delft**)

17.45 Questions and discussion

18.00 Meeting close
