

## Technical support for assessing Options for European action to reduce Greenhouse Gas emissions from transport in the period to 2050

### Meeting 6 on “Transport Futures: Scenarios and visions”

Venue:  
DG Environment, Meeting Room C  
Avenue de Beaulieu 5, Brussels B-1160

Date: 15 February 2010

#### Objective of the meeting:

- Present and discuss, with the aim of engaging stakeholders, different scenarios for 2050 based on a review of existing scenarios.
- Explore long-term influences of other sectors on transport demand and identify implications for a future GHG-constrained transport system.
- Explore our illustrative scenarios.
- Explore alternative visions of future.
